8. Academic Structure

All the programmes are organized to follow a similar modular scheme and shall be continuous over the period of the chosen full-time study including the 11-month diploma programmes are divided into 2 semesters, each having 23 weeks of teaching, learning & assessments followed by examination boards.

8.1 Programme Structure - All the programmes are divided into several Courses. A Course is a unit of the curriculum, delivered and assessed through the Assessment System as per the policy which is described under Assessment regulations. For a description of each Course and its learning outcomes you will need to refer to your Course Descriptor.

8.2 Programme Documents - The programme specification provided the window of the entire learning journey of the programme.

Course Descriptor - This is a document, which you will receive at the start of every semester. The
Course Descriptor provides a holistic view of the entire plan of the semester giving details of Learning outcomes, weekly session plan, assignments, and dates of assessment. The descriptor outlines the scope of teaching; precise details of projects and assignments vary from year to year. The project tutors issue indicative reading lists as appropriate.

It is your responsibility to ensure that you read it carefully and seek clarifications (if required) from your Department Lead.

8.3 Credits and Credit Accumulation
Each Course is assigned a number of credit points. The credit points for all Courses in your Programme are shown in the Course Descriptors. To qualify for the diploma at each level you should have earned 120 credits. Each credit point is equivalent to 10 hours of study which can be Face to Face, Online or Independent study hours. During your Programme of study, you will have an opportunity to earn extra credits.

8.4 Assessment and Evaluation Policies
At the beginning of each semester in the academic year, you will receive an overview of the Courses in the Programme. The Course Descriptor will provide you with the details of the Teaching, Learning & Assessment plan. An assessment brief provided in the Course Descriptor will have details of assessable tasks and their schedules, learning outcomes expected and the evaluation guidelines. Some of the assessment tool used commonly are:

Assessment methods

   • The process is used for different exercises.
   • Divergent thinking
   • Skills and attention to detail in the execution
• Overall development of the student

e. **Juries** composed of faculty and experts will:
• Provide students with an opportunity to articulate reasons for decisions.
• Demonstration of skills and thinking abilities
• Discussions and arguments
• Facilitate improved performance.

These will be used for formative and summative assessments.

f. **Exams and Quizzes** – These could take the form of multiple choice, Short questions, long essays etc. This could be held Face to face or online. This could be open book exam also. These would be used for formative and summative assessments to evaluate the understanding and of definitive knowledge of the subject/course.

1 Indicative – Programme curriculum teams to add and delete assessment tools as per subject content and assessment needs.

Other methods will include case studies, e-logs, online discussion boards, blogs written, created assignments, internship journals and reports.

8.5 Student with late Admissions

Students taking late admission would be provided support and given orientation. Students will be mentored by the respective Department Lead and shall be assigned remedial classes as required.

8.6 Evaluation

8.6.1 Assessment Process

At Pearl Academy, the process of work is considered equally important as the outcome. Hence, it is vital for students to simultaneously document their work as per the format given in the academic semester for all courses.

8.6.2 Academic Assessment & Feedback

Assessment for each Course is completed during or at the end of the duration of the Course as per the plan given in Course Descriptor.

Students will receive feedback in a prescribed format for each Course. The feedback form will explain your strengths and areas to improve and the conformity of the marking with the declared assessment criteria and as per the evaluation rubric (scoring guide) based on the learning outcomes being evaluated.

Every Student receives two types of feedback: Formative and Summative.

Formative feedback is aimed at evaluating your ability to absorb and imbibe the learning in the form of knowledge, understanding and skills, during the progression of a Course. You will have to keep a record of discussions with tutors and group members in a logbook. After each feedback, the logbook must be signed by faculty. This needs to be presented to external examiners as evidence.

Summative feedback is aimed at assessing the achievement of learning outcomes. The details of the assessment will be outlined in the Programme documents provided to you.

8.6.3 Marking of Assessments

Each Course of a Programme in a semester is assessed either separately or integrated with the other courses based on the project briefs for the level as learning outcomes of all the courses are interconnected to match the overall graduate profile. The summative assessment will therefore evaluate course-wise learning outcomes as well as the integrated learning outcomes for the given semester. This will be clearly defined in your course descriptor, assessment brief and assessment deliverables. The course descriptor will also include the rubric (grading tool) for better understanding of the output expected from you and level of proficiency required in a given assignment.

The Course mark is the calculated weighted aggregate of the ‘assessment elements’ (prescribed summative assessments) of the Course. All marking is given in whole numbers.

In the UG programme passing of a course occurs at accomplishing overall 40 marks out of 100, and in the case of PG programme passing of a course is at overall 50 marks.

The graded evaluation will be distributed as in table below: In-course assessment and end-term assessment may have different components with individual weights adding up to 50 % as mentioned in the course descriptor. Non-appearance or Non-submission in any form of prescribed assessment leads to failure of the course.

<table>
<thead>
<tr>
<th>In course assessment</th>
<th>End Term Assessment</th>
</tr>
</thead>
<tbody>
<tr>
<td>50%</td>
<td>50%</td>
</tr>
</tbody>
</table>
Further, the eligibility for end term summative assessment is subject to the following conditions:
1. Minimum 75% Attendance
2. No pending financial dues
3. No Disciplinary action
4. Participation in all compulsory academic and other activities.

On meeting the above criteria you will be issued a Hall Ticket which facilitates your appearance for the end term assessment. The students not having the Hall Ticket would not be allowed to appear for any end semester Exams/Assessments.

**Note: Any student who is not able to reach the hall for the Exam or Jury due to any reason (including medical concerns) will have to appear for supplementary exams. Marks will be capped, and they will have to pay the fees as per supplementary rules.**

Students appearing for University exams should share the date sheet or intimation of the dates of University exam with S3 member and DL as soon as they receive. If a student is not able to reach the hall for the Exam or Jury due to clash in date and time with University exam they will have to appear for supplementary exams. Marks will not be capped. Students will not have to pay the supplementary exam fee. The student will have to provide the date sheet as evidence for this. In case the student is not able to provide evidence, the capping of marks and fees for supplementary attempt will be applicable.

For any other exceptions students can write to S3 or DL. Central Academic committee will take decisions on a case-to-case basis.

**Student enrolled in or before AY 2020-2021**

To pass each Course and the Programme you need to score minimum of 40% marks (UG diploma courses)

**Student enrolled in AY 2021-2022**

10-point grade system will be followed for marking. The passing Criteria UG diploma courses & PG Diploma courses

- Passing Criteria for UG - Individual Course Grade Point 4.0, Programme Grade Point Average 5.0
- Passing Criteria for PG - Individual Course Grade Point 5.0, Programme Grade Point Average 6.0

*(Note: Reference Assessment and Evaluation Policy in the Academic Process and Compliance Manual)*

All marks /grades are PROVISIONAL, until endorsed and confirmed in the proceedings of the Examination Board. The Examination Board at Pearl Academy is held at the end of each Academic Year to evaluate whether the students have conformed to the teaching, learning and assessment processes to meet the learning outcomes of a given programme in the given level. This board comprises of:

- External Examiners
- Head Academic Governance
- Dean
- Director of Academic Operations
- Associate Deans
- Faculty teaching on the programme.
- Department Leads

In the event that the Examination Board chooses to change the student’s PROVISIONAL mark /grade, upward or downward, the prescribed changes will be implemented accordingly and recorded appropriately in the minutes of the Board meeting. The Board’s decision will be final and binding.
and appeal against the academic decision of the Board will not be permissible.

S | Successful Completion of extra credits.

Grades O to F will contribute to CGPA. CGPA is calculated using the below formula:

\[
\text{CGPA} = \frac{\text{Sum of grade points multiplied by credits of each course}}{\text{total number of credits}}.
\]

For courses completed through supplementary exams, the marks will be capped to one grade lower.

#### 8.7.1 Extra Credits:

Students have an opportunity to earn extra credits through various Curricular, co-curricular and extracurricular activities. Internship is mandatory, but all other activities are a matter of student’s choice.

Extra credits earned by way of curricular activities get added to CGPA only in the case that they substitute the shortfall in credits due to failure in course(s), otherwise they get mentioned in the transcript. Extra credits earned by way of co-curricular/extra-curricular activities get mentioned in the transcript only.

Students should contact their department for details.

8.8 Marks Consideration for International Credit Exchange *(Refer Section 16 – International Experience)*

- For International credit exchange, the marks given by the host institute are considered without moderation.
- In an instance where either the student is not satisfied, or the Department Lead has a concern about the marks given, they can reach out to the International Relations Department.
- The International Relations Department can then take up the point with the host institute.
- The decision of the Host institute will be considered as final and will not be eligible for an appeal.

8.8.1 Shortfall in weeks / credits of study for international exchange

Where a student has not completed the minimum number of weeks / credits of international credit exchange due to the following conditions:

The number of weeks offered are less than prescribed in the Programme of study, the student can undertake the same assignment /project in the domestic experience and work on it to cover up the shortfall of allotted time.
The student is not able to complete the stipulated no. of weeks due to debarment/illness/unforeseen circumstances/disciplinary issues –

- **Due to Debarment and Disciplinary issues** – Considering that the student has displayed unprofessional attitude (e.g. absent from classes, non-submission of projects, belligerent behavior, disregard of host Institution rules and regulations) while undergoing the international exchange, the Examination Board may decide on the Programme of action which may require a student to complete satisfactorily an alternative form of assessment which simulates some of the characteristics of the work that the student was supposed to do in the host institute. Such marks will not be counted in the international credit exchange Course.

- **Due to Illness / Unforeseen circumstances** – In such circumstances, the Board may enact one of the following options:
  
  - Ask the student to rework and resubmit the work to the host institute (in case the host institute has the provision. This has to be done through the international affairs department. This will be treated as supplementary.

  - Require a student to complete satisfactorily an alternative form of assessment which simulates some of the characteristics of the work that the student was supposed to do based on the learning outcomes and give marks in the alternative Course. Such marks will not be counted in the international credit exchange Course. Marks will be capped as per supplementary exam rules.

### 8.8.2 Student failing the international credit exchange Course.

In such circumstances, the Examination Board may enact one of the following options:

- Ask the student to rework and resubmit the work to the host institute (in case the host institute has the provision. This has to be done through the International Affairs Department. The marks will be counted in the international credit exchange Course and will be capped at passing marks as per supplementary exam rules.

- Require a student to complete satisfactorily an alternative form of assessment which simulates some of the characteristics of the work that the student was supposed to do, based on the learning outcomes, and give marks in the alternative Course. Such marks will not be counted in the international credit exchange Course. The assessment will be considered as a supplementary exam.
8.9 Students with special needs

Reasonable adjustments to assessment arrangements will be made to ensure that students with special needs (certified medically) are not substantially disadvantaged. However, our campuses are not wheelchair friendly. The Department Lead will make the request and discuss it with Associate Dean. President Academics will make final approval. S3 will provide counselling support and ensure that these adjustments are implemented. Any agreed adjustments will be notified to the Academic Governance.

8.10 Progression

At the completion of the year, your result is determined by weighted average of the Marks/Grades attained by you in all the Courses of that academic year, as per following guidelines:

You progress to the next level of study by clearing all 120 credits of the level.

However, in case of failure to clear all 120 credits the following allowances are permitted:

- You can progress to the next level of learning provisionally in case of individual course failure if you meet the prerequisites of the next level of learning.
- You may progress provisionally if you have cleared a minimum of 40 credits (1/3 of the total credit requirements) of a level.
- You can reattempt and pass the shortfall of credits due to failure through supplementary exams per course failed as per the announced schedule.
- You need to complete the prescribed 120 credits per level in case you choose to exit your learning programme with a qualifying level award.
- In order to receive the final Professional diploma level award in UG/PG you have to clear all the credits of the programme across all levels (from the lowest level to the highest level).
- Course marks achieved through a supplementary examination are capped to one grade lower.
- You must complete the Professional Diploma in UG within 6 years of first enrolment and in PG within 4 years of first enrolment.

8.10.1 Improvement of Marks

Students can appear for supplementary Exam for improvement of marks in course(s). Students willing to appear for supplementary examination for improvement must notify the Department Leader and S3 member. They must pay the supplementary fees. After the improvement in Marks the student can return the old transcript and get the new one.

In case a student appears for supplementary exam for improvement but scores lower than previous marks then higher of the two would be considered for CGPA. The administered supplementary will subscribe to the prevailing content of the course as per the course descriptor in force.
8.10.2 Changes to the Assessment Regulations

The Pearl Academy reserves the right to alter its courses without prior notice, and to modify from time to time its regulations for the admission and progression of students and for the conferment of awards. Where these changes affect the title of an award or cause a student to be unable to complete the named award for which they are registered, they will be consulted, and the Board of Examiners (including External Examiners) informed. Where the named award cannot be offered or completed, Pearl Academy will describe the title of an alternative award which can be made available to the student.

The regulations will be reviewed and updated periodically in line with developments in Pearl Academy's policy and practice. There may be differences in regulations as they apply to different batches of students registered for the same award. Every effort will be made to inform students about proposed changes and, if academically appropriate, introduce such changes for all cohorts of students.

There are occasions when a course becomes redundant and may be discontinued. A student cannot demand reassessment in a Course that is no longer offered.

8.11 Academic Independence and Responsibility

At Pearl Academy, we expect each student to actively participate in and engage in their learning process. It is your responsibility to promote, protect and uphold the highest standards of academic integrity and honesty. You must apply appropriate citation methods, differentiating original work from quoted, incorporated, or emulated sources, specific to each discipline. You are responsible for keeping track of your progress in each Course. It is essential to familiarize oneself with Programme requirements by reading pertinent descriptive documents and material and in-class instructions shared by the faculty member (oral/written) for assignments and your course work.

8.11.1 Academic Honesty & Integrity Policy

Students must not act in a manner which constitutes academic dishonesty. Academic dishonesty is any act that allows a student to gain an unfair advantage over other students. This includes, but is not limited to, the use of unfair means, infringement of copyright/ IPR, copying, plagiarism, and unauthorized collaboration, alteration of records, use of restricted aids, and unauthorized use of proprietary material, bribery, and lying. The academic department in which a student is enrolled has the primary responsibility of adjudicating alleged infractions of the Academic Honesty and Integrity Policy.

Academic Misconduct is more commonly known as ‘cheating’. This includes collusion, copying, syndication (the sharing of workload when not directed to do so) outsourcing and duplication. It would also include a close paraphrase of their words, or a minimally adapted version of a computer program, a diagram, a graph, an illustration, etc. taken from a variety of sources without proper acknowledgement. These could be lectures, printed material, the Internet, or other electronic/AV sources. ‘Presenting the work of others as one’s own without proper, clear and unambiguous acknowledgement’ is called plagiarism and is a serious academic offence.

Conditions applicable for enforcement of Plagiarism:

The inclusion in a student work of more than a single phrase from another person’s work without the use of quotation marks and acknowledgement of the sources. The summarizing of another person’s work by simply changing words or altering the order of presentation, without acknowledgements, in that case the similarity index between the two works should not be more than 10%. Copying the work of another candidate, without that student’s knowledge or agreement in this
case the party copying is guilty of plagiarism. In the case of copying with the knowledge or agreement of another student, both the parties are guilty of plagiarism. In case student(s) is/are found in collusion as described above, the entire work submitted stands null and void.

Use of unfair means in examinations, seeking help or bringing in non-permissible material in an examination is also adopting unfair means.

‘Self-plagiarism’ occurs where, for example, you submit work that you have presented for assessment on a previous occasion.

Collusion when a student or students collaborate with another student or students, as an individual or group to gain a mark or grade to which they are not entitled. Students who allow another student to copy their work are also committing collusion and both the copier and the provider of the work are liable to be penalized. Where it is proved, collusion will be subject to penalties similar to those for plagiarism.

Fabrication or falsification of data in instances where a major part of student’s work involves laboratory or other forms of practical work. You are expected to behave in a responsible manner, as in other aspects of your academic life, and to show proper integrity in the reporting of results or other data. Hence you should ensure that you always document clearly and fully any research work/activity or survey that you undertake, whether working by yourself or as part of a group. Results or data that you or your group submit must be capable of verification, so that those assessing the work can follow the processes by which you obtained them. Under no circumstances should you seek to present results or data that were not properly obtained and documented as part of your practical learning experience. Otherwise, you lay yourself open to the charge of fabrication or falsification of results. Where it is proved, falsification will be subject to “penalties as stated below”.

- Penalty for Academic irregularities and Forfeiture of Assessment

In the event that you are proven to have committed any Academic misconduct (plagiarism or indulged in use of unfair means, copying, falsification, using unfair means, and dishonesty), you will forfeit all assessment marking that you may have received provisionally in the Course(s) in which plagiarism or cheating has been detected. Opportunity for reassessment (as per the defined assessment policy and its marks capping rules) will be subject to the decision of the Disciplinary Committee notified to examine the charge(s) that have been levelled against you.

8.12 Deregistration

You might be struck off rolls and be deregistered under following conditions:
- Non-Submission of Fee
- Non-Progression
- Continuous Absence of 4 weeks (without information)
- Disciplinary Grounds
- Any Ragging or related activities

Consequences of Deregistration

8.12.1 Forfeiture of ID card
8.12.2 Access to classes online or F2F will be revoked.
8.12.3 Suspension or rustication from the Academy in case of Disciplinary Grounds or Any Ragging related activities
8.12.4 Levy of fine.
8.13 Student Debarment

Students are liable to be debarred, excluded or prohibited officially from all activities at the academy or its premises and otherwise at the Academy for various reasons or acts or behaviours which are not in accordance to the regulations of the Academy. The DL and Associate Dean form a neutral evaluation committee to re-evaluate the student’s assignment. The Dean looks at the matter and works closely with the evaluation committee. The neutral expert committee then re-evaluates the work and gives marks and feedback to the Department lead. It is to be noted that the committee’s evaluation is final. The DL sends the marks against the earlier marks achieved by the student along with the feedback form to academic operations team and they communicate the final decision to the student. 20 Industry Linkages and Internship

20.1 Industry linkages

The programmes offered by the Academy are very practical, industry oriented and market focused. Students will be required to connect with the industry, undertake real life projects and assignments, which can include a span of activities from research to design, implementation, installation, and audit. Students will be engaging themselves with the practical situations in the industries they are likely to work in, so that they are better equipped to fit into organizational working environment and adapt to situations effectively.

The Academy also facilitates valuable contacts to students through visiting industry experts, by organizing field trips, and by providing reference letters. It is expected that students will make active efforts to make the most of these opportunities and develop their own industry contacts. It is compulsory for all students to attend field trips and industry talks, as it is a part of the curriculum and students will be marked for attendance.

The Academy has a Career Services team which spearheads industry linkages. There will be prescribed timings during which students may interact with the relevant authorities for training and support to undertake their assignments in industry.

20.2 Internship

At some stage of every programme, you are required to undertake an Industry Internship. The objective of the internship is for you to:

- Study and understand prevalent commercial and industrial practices, standards, and procedures.
- Reinforce your theoretical knowledge with practical and hands on experience.
- Develop and strengthen the ability to work as an effective and willing member of a team.
- Understand the pressures of the industry and sharpen problem-solving skills.

Besides, the experience gained through internship, it will help you to identify problem area(s) to be addressed in your final dissertation/project. This internship is supported by close co-ordination between the Academic Department & the interning organization to ensure an assignment fitting with your needs and to monitor your progress. The internship is an essential requirement for the successful completion of the Programme.

The internship is evaluated based on the Learning Outcome and as per the brief provided in the Course Descriptor. The faculty mentor will be provided to guide your learning. You should have at least 1 mentoring session/week (can be online session). The mentoring session is mandatory and attendance record will be maintained. The record of all the mentoring sessions including points of discussion, feedback etc must be maintained in the logbook. You must send the weekly report of your learning to the mentors once a week before the mentor meeting. For any issues/problems being faced by you in the industry, you should report to the mentor. The faculty mentor is constantly in touch with the industry mentor and takes feedback from them on student’s performance and learning. At the end of the internship the faculty mentor will ask industry mentor to fill the feedback form (prescribed format) for you and later share with you.

To give you a positive internship experience your Academic Department requires your cooperation in processing your internship as follows:
• Your resume should be submitted to the Department two months prior to the commencement of the internship. It should be professionally presented, elaborating on your skills and capabilities.

• For outstation internships, accommodation is your responsibility unless the company is specifically willing to provide the same to you. Transportation costs to and from the place of internship are also to be borne by you.

• You may or may not be paid a stipend for the internship period. This is entirely at the company’s discretion. The Academy, however, does recommend to all interning companies a desirable amount that may be paid to you as a stipend. This recommendation is uniform for all of the members of your cohort.

• You will be required to maintain a journal and file a weekly log/report of your internship experience with your department. This helps the Academy in monitoring your internship and ensuring that you have a positive learning experience. Failure to file a weekly report may nullify the internship.

• You are required to report for your internship on the stipulated date and time mentioned on your internship intimation letter.

• All rules of the organization where you are interning must be followed. You are expected to show the highest level of professional ethics.

• As you are representing Pearl Academy as an intern, all rules of the academy (academic integrity, code of conduct etc.) have to be followed.

• For any international internships, students should follow the rules & regulations of the country.

22.2 Code of Conduct for Virtual Learning

In the new teaching and learning scenario of hybrid learning the Academy expects you to display utmost regard for the rules and regulations of the institution and maintain a high standard of online academic discipline. We are committed to our academic duty of providing high-quality education to students even if it is through a virtual platform. Therefore, we expect your complete cooperation to make the online teaching-learning process successful. As your classroom at times will be a virtual one, we expect the same standards of behavior as we do on campus. To understand the online etiquette that you are supposed to follow, go through the guidelines given below for attending online classes and always keep them in mind.
• Attend every class as per the time mentioned in the timetable shared with you by the S3. You are supposed to join the online class 5 minutes before the scheduled time. A maximum grace period of 5 minutes is allowed after the class starts. Do not waste the teacher’s time by attempting to enter the class after that.

• When the class is on, you are supposed to keep your video/camera on. The microphone should be kept muted so that there is no interference in the class proceedings. Use headphones to ensure that you can hear the teacher properly. Switch on your microphone when the teacher asks you to speak.

• Select a profile picture that is appropriate for attending an online class. A simple headshot is recommended. Refrain from switching on any virtual background.

• Dress appropriately and be properly groomed.

• The formal environment of the online class requires you to use appropriate language. Use complete sentences while communicating with the teacher through the chat box. Avoid using abbreviations and slang, etc. If any student is found using obscene, disrespectful, threatening language while communicating, strict disciplinary action will be taken by the college authority.

• Do not share the joining link of any online class with students at other colleges or friends. Misusing or distributing the study materials uploaded in Blackboard / OneDrive will be treated as academic misconduct. Copying information from online sources or other students for the assignments given in class is considered plagiarism and is strictly prohibited.

• Attendance is a crucial component of the online learning process. Follow the instructions given by the teacher so that your attendance is recorded properly. You are supposed to attend a class for the entire duration mentioned in the timetable to get attendance.

• Visit the college website regularly to check the virtual notice board for updates. Join the WhatsApp groups created for all your Cohort according to the instructions provided by the respective departments. All important information, notifications, and announcements will be conveyed to you through these platforms. You are responsible for staying informed and tracking important updates from the academy and your teachers.

• You are not permitted to violate this code of conduct or cause disruption in the online class proceedings. Any inappropriate behavior will be reported to the disciplinary committee and strict action will be taken against the students involved as per the regulations of the committee.

25  Student Participation and Feedback

We believe in open and frank interaction between students and the Academy. The Academy conducts various feedback surveys periodically to assess and understand the needs of our students and to improve our system and services. The information on such feedback surveys will be shared with you through the Department Lead from time to time. Participation in such surveys is mandatory. You can freely discuss your views and problems with your Department Lead, Faculty members and S3.

At the beginning of each academic year, we will ask for volunteers from each program to act as Programme student representatives. The role involves acting as a link between the students and the Department. Student Programme representatives attend meetings with Department Lead, S3 and Academic Governance to raise and discuss issues related to academic matters and the student experience. These are called Programme Committee Meetings (PCMs), held twice every semester.

At the end of 14th week of each semester, all students will be required to complete online feedback, to give their opinion regarding Teaching Quality (TQ)/ Mentoring Quality (MQ) of all tutors of courses taught during a semester. This feedback is useful for the faculty and the department to make improvements that shall benefit students successively, therefore, students are expected to be frank and honest in their views. At the same time, it is expected that such feedback is impersonal, and relates only to the relevant courses in terms of their content and delivery. It is mandatory for all students to participate in the formal feedback.
